01

<PROFILE SUMMARY/>

"I am a self-taught frontend developer, and within a span of six months, I have built and deployed several applications on Netlify. Additionally, I have a deep understanding of JavaScript libraries, particularly React.js."

02

<EDUCATION/>

- **Master of Computer Application**
Annamalai University (2021 - 2023)
- **Bachelor of Computer Application**
Thiruvallur University (2018 - 2021)

03

<PROJECT/>

• **Weather-App**

Project Description :

 A simple and user-friendly weather application which lets the users know the temperature of any location across the globe and also various parameters. This application has been built using ReactJS and OpenWeather API.

Deployment Link : <https://mdn-weather-app.netlify.app>

• **Password Generator**

Project Description:

Create your strong passwords and can copy them to your clipboard. Users can select what to include in their passwords like small letters, capital letters, special characters, numbers, etc.

Deployment Link : <https://mdn-password-generator.netlify.app>
